

Petition to the Government of Canada

Whereas:

- Post offices are the lifeline of rural and remote communities, they provide an essential service, and are relied upon for keeping in touch with loved ones and for picking up essential goods;
- It is the government and Canada Post's responsibility to deliver postal service to communities, and this responsibility has been pushed onto underpaid postmasters and local communities;
- Locals should have the right to this essential service and should not have to travel long distances to get their mail and/or parcels if the service is discontinued in rural areas;

Therefore, we the undersigned, Citizens of Canada, call upon the Government of Canada to:

1. Ensure that post offices receive the funding required to ensure there are no closures of rural post offices and that postmasters can continue to operate their premises efficiently with all the resources they need;
2. Stop the privatization of post offices and end the closure of post offices in rural Canada.
